Skills

Python | Javascript | React | HTML | CSS | Git | Deployment | Functional Testing

Projects

[Ditty](#) - a music composition tool. - Javascript - HTML - CSS

Displays four-note musical sequences, vertically and horizontally reversible, with code generated SVG images. Drag and drop interface.

[iknowthatface](#) - a tool to find why you recognize an actor - Python- HTML - CSS

Creates a web server using Flask. Displays information with templates using Jinja. Uses information from the TMDB API.

Work Experience

Career Pause

08/12 - Present

Parenting followed by two years of self directed study in software development.

Programming skills in HTML, CSS, JavaScript, SQL, Python, React.

Quality Assurance Analyst

WB Games

Bothell, WA | 09/09 - 08/12 (Volt Services: 09/08 - 03/09).

Executed compliance tests on more than 30 game titles. (Production-side Certification testing.)

Developed, monitored, and incrementally improved processes for maintaining test suites.

Initiated and led the research of defect patterns, resulting in improved test effectiveness. This initiative contributed to WB Games' attainment of Microsoft Platinum Publisher status, a line-jumping perk for publishers who consistently submit launch-ready titles.

Education

BA Philosophy

Mills College, Oakland, CA

Certified Tester, Foundation Level

ASTQB - ISTQB (International Software Testing Qualifications Board) in the US | 12/21
